About Us

ISHAYAS - EVOLUTIONARY FULFILLMENT

'Awakening-Self-Empowerment-Completion-Ascension'!

'Ishayas' is dedicated to the expansion of consciousness; Wiping the scales of ignorance away from the eyes of humanity by seeking direct experience of the nature of one's own being.

Through the spreading of awareness of 'the one source', we encourage fellow beings to embrace a script for life that allows for 'Ascension' beyond the veils of the ego and limited physical reality, to take hold and unfold.

A literal definition of 'Ascension' is to climb or soar upwards. Our spiritual evolution in human embodiment, through this physical existence, also ascends, as we raise our consciousness and awareness.

Our Symbol (logo) signifies – 'Evolutionary Fulfillment'. This symbol when focused upon shall redirect one's dream for the journey home after a complete experience of this physical plane. It dissipates dense thought form, machinery & redundant belief systems bringing one's dream into alignment with the choice to ascend.

The Sanskrit word 'Ishaya' derives from 'Isha', which has many levels of meaning including, - 'The aspect of the One that destroys ignorance', 'The Lord of evolving consciousness', and 'Christ'. 'Christ' was call 'Isha' when he travelled to India and Tibet.

Ishayas was established on May 27, 2010 which was 'Wesak' poonam (when Christ & Buddha meet in the Wesak valley of the Himalayas)

Our path lies in bringing in an awakening of the essence of Christ Consciousness - Universal Love, thru the essence of Buddha's wisdom and light.

VISION

Ascension & the Evolution of Consciousness through Enlightenment for all of humanity.

Contd...

ISHAYAS

FOUNDER - TORAL VITHALANI – A student of life... 😊

About Toral:

By profession Toral runs a Tour Company JTB Travels since the past 15 years. Her work enabled her to be a modern day globetrotting gypsy, and after extensively travelling the world, meeting people from all backgrounds of life, experiencing different cultures and traditions, she started her journey inwards looking for 'more' than the mountains, seas, vineyards, and even monuments like the pyramids and ancient temples had to offer. She always knew there was much more than what we perceive as the magnificent ever-changing external. She was looking for a state of permanent feeling of 'home', a place where she had to search no more, a place where she could 'be'.

Along this journey, since 2007, she read extensively, searched abundantly, questioned curiously, attended workshops... and holds within her current consciousness the experience of multiple Vipassana camps. She is a Past Life Regression Therapist & Hypnotherapist certified by the California Hypnosis Institute of India and is pursuing her post-graduation in Hypnotherapy with the Tasso University, Netherlands. She is also a Reconnective Healing® & The Reconnection® practitioner.

'The girl with many questions' (as she was called during her workshops) has an unending curiosity to know more, that drives her to continuously seeking and learning, to wake-up more of herself, to more of what is beyond our physical reality.

ISHAYAS is an inner passion Toral seeded along her journey to spread the light of expansion from the gross physical reality to finding & embracing our multi-dimensionality.
